

# National Health and Nutrition Examination Survey

## 2017-March 2020 Data Documentation, Codebook, and Frequencies

### Demographic Variables and Sample Weights (P\_DEMO)

**Data File:** P\_DEMO.xpt

**First Published:** May 2021

**Last Revised:** NA

---

## Component Description

The NHANES program suspended field operations in March 2020 due to the coronavirus disease 2019 (COVID-19) pandemic. As a result, data collection for the NHANES 2019-2020 cycle was not completed and the collected data are not nationally representative. Therefore, data collected from 2019 to March 2020 were combined with data from the NHANES 2017-2018 cycle to form a nationally representative sample of NHANES 2017-March 2020 pre-pandemic data. These data are available to the public. Please refer to the Analytic Notes section for more details on the use of the data.

This demographics file provides information on the following topics:

- Survey participant's household interview and examination status;
- Interview and examination sample weights;
- Masked variance units;
- Language of questionnaires used for the interviews conducted in the household and in the mobile examination center;
- Use of proxy or interpreter during the interviews;
- The six-month time period when the examination was performed;
- Pregnancy status;
- The ratio of family income to poverty guidelines; and
- Other selected demographic information, such as gender, age, race/Hispanic origin, education, marital status, country of birth, and years of U.S. residence.

## Eligible Sample

All participants in the NHANES 2017-March 2020 pre-pandemic sample are included in this dataset. The target age group for individual demographic variables in this file varies by the topic. Please review the codebook carefully.

## Interview Setting and Mode of Administration

The family and sample person demographics questionnaires were asked, in the home, by trained interviewers using Computer-Assisted Personal Interview (CAPI) system. The respondent selected the language of interview (English or Spanish) or requested that an interpreter be used. Hand cards, showing response choices or information that survey participants needed to answer the questions, were used for some questions. The hand cards were printed in English, Spanish, Mandarin Chinese (both traditional and simplified), Korean, and Vietnamese. The interviewer directed the respondent to the appropriate hand card during

the interview. When necessary, the interviewer further assisted the respondent by reading the response choices listed on the hand cards.

Persons 16 years and older and emancipated minors were interviewed directly. A proxy provided information for survey participants who were under 16 and for participants who could not answer the questions themselves.

The NHANES [2017-2018](#) and [2019-2020](#) demographics questionnaires are available on the NHANES website.

## Quality Assurance & Quality Control

The CAPI system is programmed with built-in consistency checks to reduce data entry errors. CAPI also uses online help screens to assist interviewers in defining key terms used in the questionnaire.

After collection, interview data were reviewed by the NHANES field office staff for accuracy and completeness of selected items. The interviewers were required to audio record interviews and the recorded interviews were reviewed by NCHS staff and interviewer supervisors.

## Data Processing and Editing

Frequency counts were checked, "skip" patterns were verified, and the reasonableness of question responses was reviewed. Edits were made to some variables to ensure the completeness, consistency, and analytic usefulness of the data. Edits were also made, when necessary, to address data disclosure concerns.

**SDDSRVYR:** This variable identifies the specific data release cycle. A value of "66" denotes NHANES 2017–March 2020 pre-pandemic data.

**RIDSTATR:** This variable is used to identify whether a participant was both interviewed at home and examined in the mobile examination center (MEC) or was only interviewed in the home but never went through the examination.

**RIDAGEYR:** Age in years, at the time of the screening interview, is reported for survey participants between the ages of 1 and 79 years of age. Due to disclosure concern, all responses of participants aged 80 years and older are coded as '80.' In NHANES 2017-March 2020 pre-pandemic sample, the weighted mean age for participants 80 years and older is 85 years.

RIDAGEYR was calculated based on the participant's date of birth. In rare cases, if the actual date of birth was missing but the participant's age in years was provided, the reported age was used.

**RIDAGEMN:** Age in months, at the time of the screening interview, is provided for participants who were less than 25 months of age at the time of examination (RIDEXAGM < 25). If the exact date of birth was not provided by the respondent, the age in months was calculated based on the imputed age in years at the time of the screening interview.

**RIDEXMON:** This variable indicates the six-month time period when the examination was performed. A value of "1" indicates November 1<sup>st</sup> through April 30<sup>th</sup>; a value of "2" indicates May 1<sup>st</sup> through October 31<sup>st</sup>.

**RIDRETH3:** This is the race-ethnicity variable included in the demographics file since the 2011-2012 survey cycle to accommodate the oversample of Asian Americans. It was derived from responses to the survey questions on race and Hispanic origin. Respondents who self-identified as "Mexican American" were coded as such (i.e., RIDRETH3=1) regardless of their other race-ethnicity identities. Otherwise, self-identified "Hispanic" ethnicity would result in code "2, Other Hispanic" in the RIDRETH3 variable. All other non-Hispanic participants would then be categorized based on their self-reported races: non-Hispanic white (RIDRETH3=3), non-Hispanic black (RIDRETH3=4), non-Hispanic Asian (RIDRETH3=6), and other non-Hispanic races including non-Hispanic multiracial (RIDRETH3=7). Code "5" was not used in RIDRETH3.

**RIDRETH1:** This is the race-ethnicity variable that can be linked to the previous NHANES race-ethnicity variable in 1999-2010. Non-Hispanic Asian participants are grouped with other non-Hispanic races in code "5" (other non-Hispanic race including non-Hispanic multiracial) in RIDRETH1. Codes "6" and "7" were not used in RIDRETH1. Coding procedure for other categories in RIDRETH1 was compatible to RIDRETH3.

**DMDBORN4:** Due to the concerns of disclosure risk, starting in 2011, country of birth was recoded into two categories: 1) Born in 50 U.S. states or Washington, DC; and 2) Born in other countries, including U.S. territories.

**DMDMARTZ:** The marital status question was asked of persons 14 years of age and older. Due to disclosure risks, marital status is only released for persons 20 years of age and older, and recoded from the original 6 categories to 3 categories (1 = Married/Living with partner; 2 = Widowed/Divorced/Separated; 3 = Never married).

**RIDEXPRG:** Pregnancy status at the time of the health examination was ascertained for females 8–59 years of age. Due to disclosure risks pregnancy status is only released for women 20–44 years of age. The information used to code RIDEXPRG values included self-reported pregnancy status and urine pregnancy test results. Persons who reported they were pregnant at the time of exam were assumed to be pregnant (RIDEXPRG=1). Those who reported they were not pregnant or did not know their pregnancy status were further classified based on the results of the urine pregnancy test. If the respondent reported "no" or "don't know" and the urine test result was positive, the respondent was coded as pregnant (RIDEXPRG=1). If the respondent reported "no" and the urine test was negative, the respondent was coded not pregnant (RIDEXPRG=2). If the respondent reported did not know her pregnancy status and the urine test was negative, the respondent was coded "could not be determined" (RIDEXPRG=3). Persons who were interviewed, but not examined also have an RIDEXPRG value = 3 (could not be determined).

**DMDYRUSZ:** This variable is the number of years the participant has lived in the United States. Participants who were born outside the U.S. were asked the month and year when they came to the U.S. to live (DMQ.160). The responses to the question were used to calculate the length of these participants lived in the US and then recoded into 4 categories: 1 = Less than 5 year, 2 = 5 year or more, but less than 15 years, 3 = 15 year or more, but less than 30 years, and 4 = 30 year or more. For participants who did not report the month of their arrival, a month value of 7 (July) was imputed in the calculation of the residence length.

**DMDEDUC2:** This variable is the highest grade or level of education completed by adults 20 years and older. The response categories are: less than 9<sup>th</sup> grade education, 9–11<sup>th</sup> grade education (includes 12<sup>th</sup> grade and no diploma), High school graduate/GED, some college or associates (AA) degree, and college graduate or higher.

**SIALANG:** This variable indicates the language (English or Spanish) used during the sample person questionnaire interview conducted at the participant's home.

**SIAPROXY:** This variable denotes whether a proxy respondent was used during the sample person questionnaire interview.

**SIAINTRP:** This variable denotes whether an interpreter was used during the sample person questionnaire interview. The language spoken by the respondent is only available through the [NCHS RDC](#).

**FIALANG:** This variable indicates the language used during the family questionnaire interview conducted at the participant's home.

**FIAPROXY:** This variable denotes whether a proxy respondent was used to complete the family questionnaire interview.

**FIAINTRP:** This variable denotes whether an interpreter was used to complete the family questionnaire interview. The language spoken by the respondent is only available through the [NCHS RDC](#).

**MIALANG:** This variable indicates the language (English or Spanish) used for the CAPI portion of the MEC interview.

**MIAPROXY:** This variable denotes whether a proxy respondent was used during the CAPI portion of the MEC interview.

**MIAINTRP:** This variable denotes whether an interpreter was used during the CAPI portion of the MEC interview. The language spoken by the respondent is only available through the [NCHS RDC](#).

**AIALANGZ:** This variable indicates the language used for the audio-computer-assisted self-interview (ACASI) portion of the MEC interview. The ACASI portion was translated into Chinese (traditional/Mandarin, simplified/Mandarin, and traditional/Cantonese), Korean, and Vietnamese to accommodate the Asian oversampling as of 2011. The three categories reported are: 1) English, 2) Spanish, and 3) Asian languages.

**INDFMPIR:** This variable is the ratio of family income to poverty. The Department of Health and Human Services (HHS) poverty guidelines were used as the poverty measure to calculate this ratio. These guidelines are issued each year, in the Federal Register, for determining financial eligibility for certain federal programs, such as Head Start, Supplemental Nutrition Assistance Program (SNAP), Special Supplemental Nutrition Program for Women, Infants, and Children (WIC), and the National School Lunch Program. The poverty guidelines vary by family size and geographic location (with different guidelines for the 48 contiguous states and the District of Columbia; Alaska; and Hawaii).

INDFMPIR was calculated by dividing total annual family (or individual) income by the poverty guidelines specific to the survey year.

During the household interview, the respondent was asked to report total income for the entire family in the last calendar year in dollars. A family is defined as a group of two people or more related by birth, marriage, or adoption and residing together. Annual individual income was asked for households with one person or households comprised of unrelated individuals.

If the respondent was not willing or able to provide an exact dollar figure, the interviewer asked an additional question to determine whether the income was < \$20,000 or ≥ \$20,000. Based on the respondent's answer to this question, he/she was asked to select a category of income from a list on a hand card. For respondents who selected a category of income, their family incomes were set as the midpoints of the selected ranges. INDFMPIR was not computed if the respondent only reported income as < \$20,000 or ≥ \$20,000 but no additional details provided. INDFMPIR values at or above 5.00 were coded as 5.00 or more because of disclosure concerns. The values were not computed if the income data was missing.

## Analytic Notes

The COVID-19 pandemic required suspension of NHANES 2019-2020 field operations in March 2020 after data were collected in 18 of the 30 survey locations in the 2019-2020 sample. Data collection was cancelled for the remaining 12 locations. Because the collected data from 18 locations were not nationally representative, these data were combined with data from the previous cycle (2017-2018) to create a 2017-March 2020 pre-pandemic data file. A special weighting process was applied to the 2017-March 2020 pre-pandemic data file. The resulting sample weights in the present file should be used to calculate estimates from the combined cycles. These sample weights are not appropriate for independent analyses of the 2019-2020 data and will not yield nationally representative results for either the 2017-2018 data alone or the 2019-March 2020 data alone. Please refer to the NHANES website for additional information for the NHANES 2017-March 2020 pre-pandemic data, and for the previous 2017-2018 public use data file with specific weights for that 2-year cycle.

**Age at screening:** Age at screening was used to determine eligibility for an examination component and should be used for most analyses.

**DMDMARTZ:** Marital status is only released for persons 20 years of age and older because of potential disclosure risks. Prior to 2007, marital status was released for participants aged 14

and older. In NHANES 2017-March 2020 pre-pandemic sample, the percentage of persons aged 14-19 who are married or living with a partner is less than 2.5%.

**RIDEXPRG:** Because of possible disclosure risks, pregnancy status is only released for women aged 20-44 years. The percentage of pregnant women/girls aged 8-19 or 45-59 years is less than 1% in the 2017-March 2020 pre-pandemic sample.

**Masked Variance Units (MVUs):** Twenty-four masked variance strata and 49 masked primary sampling units (PSUs) are included in the NHANES 2017-March 2020 pre-pandemic demographics file. Each stratum has 2-3 PSUs. These MVUs are a collection of secondary sampling units that are aggregated into groups for the purpose of variance estimation. The variance estimates that are produced, using the MVUs, closely approximate the variances that would have been estimated using the “true” sample design variance units that are based on the actual survey sample strata and primary sampling units. MVUs are used to protect the confidentiality of information provided by survey participants and to reduce disclosure risks. The use of MVUs is described in the [NHANES Analytic Guidelines](#). Analysts should review the Guidelines carefully prior to analyzing the survey data.

**Sample Weights:** The special sample weights (WTINTPRP, WTMECPRP) should be used for all NHANES 2017-March 2020 pre-pandemic data analyses. Detailed instructions for combining datasets from previous NHANES cycles are provided in the NHANES Analytic Guidelines.

Please also refer to the [NHANES Analytic Guidelines](#) and the on-line [NHANES Tutorial](#) for further details on the use of sample weights and other analytic issues.

Disclosure risks and issues pertaining to confidentiality protection prevent NCHS from releasing all of the NHANES demographic variables publicly. Additional information and instructions for requesting use of these data are available through the [NCHS RDC](#).

## Codebook and Frequencies

### SEQN - Respondent sequence number

<b>Variable Name:</b>	SEQN
<b>SAS Label:</b>	Respondent sequence number
<b>English Text:</b>	Respondent sequence number.
<b>Target:</b>	Both males and females 0 YEARS - 150 YEARS

## SDDSRVYR - Data release cycle

**Variable Name:** SDDSRVYR  
**SAS Label:** Data release cycle  
**English Text:** Data release cycle  
**Target:** Both males and females 0 YEARS - 150 YEARS

Code or Value	Value Description	Count	Cumulative	Skip to Item
66	NHANES 2017-2020 public release	15560	15560	
.	Missing	0	15560	

## RIDSTATR - Interview/Examination status

**Variable Name:** RIDSTATR

**SAS Label:** Interview/Examination status

**English Text:** Interview and examination status of the participant.

**Target:** Both males and females 0 YEARS - 150 YEARS

Code or Value	Value Description	Count	Cumulative	Skip to Item
1	Interviewed only	1260	1260	
2	Both interviewed and MEC examined	14300	15560	
.	Missing	0	15560	

## RIAGENDR - Gender

**Variable Name:** RIAGENDR

**SAS Label:** Gender

**English Text:** Gender of the participant.

**Target:** Both males and females 0 YEARS - 150 YEARS

Code or Value	Value Description	Count	Cumulative	Skip to Item
1	Male	7721	7721	
2	Female	7839	15560	
.	Missing	0	15560	

## RIDAGEYR - Age in years at screening

**Variable Name:** RIDAGEYR

**SAS Label:** Age in years at screening

**English Text:** Age in years of the participant at the time of screening. Individuals 80 and over are topcoded at 80 years of age.

**Target:** Both males and females 0 YEARS - 150 YEARS

Code or Value	Value Description	Count	Cumulative	Skip to Item
0 to 79	Range of Values	14878	14878	
80	80 years of age and over	682	15560	
.	Missing	0	15560	

## RIDAGEMN - Age in months at screening - 0 to 24 mos

**Variable Name:** RIDAGEMN

**SAS Label:** Age in months at screening - 0 to 24 mos

**English Text:** Age in months of the participant at the time of screening. Reported for persons aged 24 months or younger at the time of exam (or screening if not examined).

**Target:** Both males and females 0 YEARS - 2 YEARS

Code or Value	Value Description	Count	Cumulative	Skip to Item
0 to 24	Range of Values	987	987	
.	Missing	14573	15560	

## RIDRETH1 - Race/Hispanic origin

**Variable Name:** RIDRETH1

**SAS Label:** Race/Hispanic origin

**English Text:** Recode of reported race and Hispanic origin information

**Target:** Both males and females 0 YEARS - 150 YEARS

Code or Value	Value Description	Count	Cumulative	Skip to Item
1	Mexican American	1990	1990	
2	Other Hispanic	1544	3534	
3	Non-Hispanic White	5271	8805	
4	Non-Hispanic Black	4098	12903	
5	Other Race - Including Multi-Racial	2657	15560	
.	Missing	0	15560	

## RIDRETH3 - Race/Hispanic origin w/ NH Asian

**Variable Name:** RIDRETH3

**SAS Label:** Race/Hispanic origin w/ NH Asian

**English Text:** Recode of reported race and Hispanic origin information, with Non-Hispanic Asian Category

**Target:** Both males and females 0 YEARS - 150 YEARS

Code or Value	Value Description	Count	Cumulative	Skip to Item
1	Mexican American	1990	1990	
2	Other Hispanic	1544	3534	
3	Non-Hispanic White	5271	8805	
4	Non-Hispanic Black	4098	12903	
6	Non-Hispanic Asian	1638	14541	
7	Other Race - Including Multi-Racial	1019	15560	
.	Missing	0	15560	

## RIDEXMON - Six-month time period

**Variable Name:** RIDEXMON

**SAS Label:** Six-month time period

**English Text:** Six month time period when the examination was performed - two categories: November 1 through April 30, May 1 through October 31.

**Target:** Both males and females 0 YEARS - 150 YEARS

Code or Value	Value Description	Count	Cumulative	Skip to Item
1	November 1 through April 30	7520	7520	
2	May 1 through October 31	6780	14300	
.	Missing	1260	15560	

## DMDBORN4 - Country of birth

**Variable Name:** DMDBORN4  
**SAS Label:** Country of birth  
**English Text:** In what country {were you/was SP} born?  
**Target:** Both males and females 0 YEARS - 150 YEARS

Code or Value	Value Description	Count	Cumulative	Skip to Item
1	Born in 50 US states or Washington, DC	12525	12525	
2	Others	3028	15553	
77	Refused	6	15559	
99	Don't Know	1	15560	
.	Missing	0	15560	

## DMDYRUSZ - Length of time in US

**Variable Name:** DMDYRUSZ

**SAS Label:** Length of time in US

**English Text:** Length of time the participant has been in the US.

**Target:** Both males and females 0 YEARS - 150 YEARS

Code or Value	Value Description	Count	Cumulative	Skip to Item
1	Less than 5 years	501	501	
2	5 years or more, but less than 15 years	594	1095	
3	15 years or more, but less than 30 years	935	2030	
4	30 years or more	864	2894	
77	Refused	42	2936	
99	Don't Know	92	3028	
.	Missing	12532	15560	

## DMDEDUC2 - Education level - Adults 20+

**Variable Name:** DMDEDUC2

**SAS Label:** Education level - Adults 20+

**English Text:** What is the highest grade or level of school {you have/SP has} completed or the highest degree {you have/s/he has} received?

**English Instructions:** HAND CARD DMQ1 READ HAND CARD CATEGORIES IF NECESSARY  
ENTER HIGHEST LEVEL OF SCHOOL

**Target:** Both males and females 20 YEARS - 150 YEARS

Code or Value	Value Description	Count	Cumulative	Skip to Item
1	Less than 9th grade	719	719	
2	9-11th grade (Includes 12th grade with no diploma)	1041	1760	
3	High school graduate/GED or equivalent	2225	3985	
4	Some college or AA degree	2975	6960	
5	College graduate or above	2257	9217	
7	Refused	2	9219	
9	Don't Know	13	9232	
.	Missing	6328	15560	

## DMDMARTZ - Marital status

**Variable Name:** DMDMARTZ  
**SAS Label:** Marital status  
**English Text:** Marital status  
**Target:** Both males and females 20 YEARS - 150 YEARS

Code or Value	Value Description	Count	Cumulative	Skip to Item
1	Married/Living with Partner	5279	5279	
2	Widowed/Divorced/Separated	2148	7427	
3	Never married	1795	9222	
77	Refused	8	9230	
99	Don't Know	2	9232	
.	Missing	6328	15560	

## RIDEXPRG - Pregnancy status at exam

**Variable Name:** RIDEXPRG

**SAS Label:** Pregnancy status at exam

**English Text:** Pregnancy status for females between 20 and 44 years of age at the time of MEC exam.

**Target:** Females only 20 YEARS - 44 YEARS

Code or Value	Value Description	Count	Cumulative	Skip to Item
1	Yes, positive lab pregnancy test or self-reported pregnant at exam	87	87	
2	The participant was not pregnant at exam	1604	1691	
3	Cannot ascertain if the participant is pregnant at exam	183	1874	
.	Missing	13686	15560	

## SIALANG - Language of SP Interview

**Variable Name:** SIALANG

**SAS Label:** Language of SP Interview

**English Text:** Language of the Sample Person Interview Instrument

**Target:** Both males and females 0 YEARS - 150 YEARS

Code or Value	Value Description	Count	Cumulative	Skip to Item
1	English	14003	14003	
2	Spanish	1557	15560	
.	Missing	0	15560	

## SIAPROXY - Proxy used in SP Interview?

**Variable Name:** SIAPROXY

**SAS Label:** Proxy used in SP Interview?

**English Text:** Was a Proxy respondent used in conducting the Sample Person (SP) interview?

**Target:** Both males and females 0 YEARS - 150 YEARS

Code or Value	Value Description	Count	Cumulative	Skip to Item
1	Yes	5519	5519	
2	No	10041	15560	
.	Missing	0	15560	

## SIAINTRP - Interpreter used in SP Interview?

**Variable Name:** SIAINTRP

**SAS Label:** Interpreter used in SP Interview?

**English Text:** Was an interpreter used to conduct the Sample Person (SP) interview?

**Target:** Both males and females 0 YEARS - 150 YEARS

Code or Value	Value Description	Count	Cumulative	Skip to Item
1	Yes	401	401	
2	No	15159	15560	
.	Missing	0	15560	

## FIALANG - Language of Family Interview

**Variable Name:** FIALANG

**SAS Label:** Language of Family Interview

**English Text:** Language of the Family Interview Instrument

**Target:** Both males and females 0 YEARS - 150 YEARS

Code or Value	Value Description	Count	Cumulative	Skip to Item
1	English	13112	13112	
2	Spanish	1369	14481	
.	Missing	1079	15560	

## FIAPROXY - Proxy used in Family Interview?

**Variable Name:** FIAPROXY

**SAS Label:** Proxy used in Family Interview?

**English Text:** Was a Proxy respondent used in conducting the Family Interview?

**Target:** Both males and females 0 YEARS - 150 YEARS

Code or Value	Value Description	Count	Cumulative	Skip to Item
1	Yes	27	27	
2	No	14454	14481	
.	Missing	1079	15560	

## FIAINTRP - Interpreter used in Family Interview?

**Variable Name:** FIAINTRP

**SAS Label:** Interpreter used in Family Interview?

**English Text:** Was an interpreter used to conduct the Family interview?

**Target:** Both males and females 0 YEARS - 150 YEARS

Code or Value	Value Description	Count	Cumulative	Skip to Item
1	Yes	317	317	
2	No	14164	14481	
.	Missing	1079	15560	

## MIALANG - Language of MEC Interview

**Variable Name:** MIALANG

**SAS Label:** Language of MEC Interview

**English Text:** Language of the MEC CAPI Interview Instrument

**Target:** Both males and females 8 YEARS - 150 YEARS

Code or Value	Value Description	Count	Cumulative	Skip to Item
1	English	10239	10239	
2	Spanish	761	11000	
.	Missing	4560	15560	

## MIAPROXY - Proxy used in MEC Interview?

**Variable Name:** MIAPROXY

**SAS Label:** Proxy used in MEC Interview?

**English Text:** Was a Proxy respondent used in conducting the MEC CAPI Interview?

**Target:** Both males and females 8 YEARS - 150 YEARS

Code or Value	Value Description	Count	Cumulative	Skip to Item
1	Yes	86	86	
2	No	10914	11000	
.	Missing	4560	15560	

## MIAINTRP - Interpreter used in MEC Interview?

**Variable Name:** MIAINTRP

**SAS Label:** Interpreter used in MEC Interview?

**English Text:** Was an interpreter used to conduct the MEC CAPI interview?

**Target:** Both males and females 8 YEARS - 150 YEARS

Code or Value	Value Description	Count	Cumulative	Skip to Item
1	Yes	256	256	
2	No	10744	11000	
.	Missing	4560	15560	

## AIALANGA - Language of ACASI Interview

**Variable Name:** AIALANGA

**SAS Label:** Language of ACASI Interview

**English Text:** Language of the MEC ACASI Interview Instrument

**Target:** Both males and females 8 YEARS - 69 YEARS

Code or Value	Value Description	Count	Cumulative	Skip to Item
1	English	7372	7372	
2	Spanish	745	8117	
3	Asian languages	107	8224	
.	Missing	7336	15560	

## WTINTPRP - Full sample interview weight

**Variable Name:** WTINTPRP

**SAS Label:** Full sample interview weight

**English Text:** Full sample interview weight

**Target:** Both males and females 0 YEARS - 150 YEARS

Code or Value	Value Description	Count	Cumulative	Skip to Item
1017.784203 to 338363.60019	Range of Values	15560	15560	
.	Missing	0	15560	

## WTMECPRP - Full sample MEC exam weight

**Variable Name:** WTMECPRP  
**SAS Label:** Full sample MEC exam weight  
**English Text:** Full sample MEC exam weight  
**Target:** Both males and females 0 YEARS - 150 YEARS

Code or Value	Value Description	Count	Cumulative	Skip to Item
0 to 367555.74298	Range of Values	15560	15560	
.	Missing	0	15560	

## SDMVPSU - Masked variance pseudo-PSU

**Variable Name:** SDMVPSU

**SAS Label:** Masked variance pseudo-PSU

**English Text:** Masked variance unit pseudo-PSU variable for variance estimation

**Target:** Both males and females 0 YEARS - 150 YEARS

Code or Value	Value Description	Count	Cumulative	Skip to Item
1 to 3	Range of Values	15560	15560	
.	Missing	0	15560	

## SDMVSTRA - Masked variance pseudo-stratum
